Online · 2024

8th Meeting of the European Hereditary Tumour Group (EHTG)

Friday, Sept 27th – Saturday, Sept 28th, 2024

Programme

Invitation 8th Meeting - Online

Dear Members, Friends, Affiliates and Sponsors,

We are delighted to invite you to the 8th annual EHTG meeting which will take place on the **27th and 28th of September 2024 – online!** Our lively programme includes selected hot and controversial topics, in depth debates, audience discussion including the opportunity to discuss challenging clinical cases. We also aim to utilise the event to further research collaboration across our members.

Day 1 (Friday) will include plenary sessions, a debate on an area of current clinical equipoise and a key note lecture on an emerging hot topic. On Day 2 (Saturday), there will be interactive working groups (WG), a Dragon's Den session where young scientists pitch their research ideas – organized by the yEHTG, and an update on chemoprevention in hereditary cancer. Furthermore, you will be able to present your most challenging cases and discuss them with an expert panel. Abstract submission will open shortly and the highest-rated abstracts will be allocated into the relevant working group for an oral presentation.

Please visit www.ehtg.org for more information and contact gs007@ehtg.org for all organisational queries. If you have any suggestions, please get in touch with any of the programme members.

We are excited to see you in September!

Sincerely yours

EHTG programme committee and board members
